Dr. Michalis Paraskevas is a Professor at the Department of Electrical and Computer Engineering of the University of Peloponnese.

His research interests relate to digital signal analysis and processing, information theory, detection and evaluation theory, next generation networks, machine learning applications in image and natural language processing, and the digital transformation of Education. He has published more than 80 papers in international journals and conferences, has authored 4 university textbooks, has participated in the organization of 3 international and 7 Greek scientific conferences and in more than 50 committees of international journals and conferences. His published work has collected more than 720 citations and has been cited in more than 70 patents.

Has thirty years of specialized professional experience in the design, implementation and operation of large-scale networks and e-government and e-learning services. He directs respective development and research projects, which have received national and international distinctions.

He was head (2019-2021) of the Department of Electrical and Computer Engineering of the University of Peloponnese and director (2020-2021) of the laboratory "Data and Media" of the same department.

Today he is Vice President of the Board of Directors of the Institute of Computer Technology and Publications "Diofantos" and coordinator of the Greek School Network.

He teaches the undergraduate courses "Signals and Systems", "Digital Signal Processing", "Information Theory", "Statistical Signal Processing and Learning" and the postgraduate courses "Next Generation Networks", "Advanced Educational Technologies" and "e-skills and STEM education" of the Postgraduate program "Technologies and Services of Intelligent Information Systems and Communications" of the Department of Electrical and Computer Engineering of the University of Peloponnese. He also teaches in the course "Applications of new technologies in educational practice and education administration" of the Postgraduate program "Organization and Administration of Education" of the Pedagogical Department of Primary Education of the University of Thessaly.

Education

1983 - 1989 University of Patras, Electrical Engineering & Computer Technology Dept.

1990 - 1995 Ph.D. of Patras Univ., Electrical Engineering & Computer Tech. Dept.

Professional Experience

2023 – now Professor of Electrical and Computer Engineering Dept. of the University of the Peloponnese

2021 – now Vice President of the Board of Directors of the Institute of Computer Technology and Publications "Diofantos"

2019 – 2023 Associate Professor of Electrical and Computer Engineering Dept. of the University of the Peloponnese

² <http://www.uop.gr/>

- 2011 – 2019** Assistant Professor of Western Greece Univ. of Applied Sciences / Dept. of Computer and Informatics Engineering
- 2011 – now** Head of Greek School Network (www.sch.gr)
- 2001 – 2011** Technical director of the Greek School Network
- 1999 – 2011** Research and Academic Computer Technology Institute - Co-director of the Network Technologies Sector of RA-CTI. Scientific director at many projects
- 2003 – 2004** Region of Western Greece - Member of the Coordinative Administrators Committee for the supervision of the implementation of Operational Program for the Information of Society at the Region of Western Greece, in the field of educational issues and broadband networks
- 1989 – 1998** University of Patras - Member of the Audio Group of the Wire Communications Lab.
- 1995 – 1999** Technical Chamber of Greece - He has the responsibilities to develop and operates the Data Bank and Internet Services of TCG West Greece Section

Committees

- Organizer or member of technical committee or member of program committee of more than 30 international conferences and workshops.
- Member of the Operational Council of Directors of the Computer Technology Institute.
- Member of the Directing Committee of the Greek School Network.

Projects (EU, GR)

He has worked as a manager or member for many (research and development) projects, such as Polyglot, eTwinning 2005-2013, Equal-IOS, 6NET, MENTOR, FRIENDS, ARIADNE, Greek School Network, ISTOS, EDUnet I, II, III, Wings of Aiolos, DICONET, ANAIS/GROWTH, PatreasNET, uPellop, DIGI-Q, VNOC-II/GRNET, MUFINS, OpenRSM, ORBIT, EGEE-I, II, II, VOUCHER, MATHITEIA4U, STEP, STIRIZO, ORCHESTRA, V4STEP, World of Physics, eSafetyPlus, etc.

Research Interests

- Digital communication systems
- Digital signal processing
- Information Theory
- Next generation networks and broadband networks
- Machine Learning application for signal processing
- e-Learning and e-Government services
- Development of electronic learning and ICTs in Education
- Digital Transformation
